Hard Skills

HTML / CSS

Photoshop

Javascript

PHP

Problem Solving

Personality

Languages

Dutch

native or bilingual proficiency

English

full professional proficiency

French

elementary proficiency

CSS

proficient in style

Self-taught front-end developer, with roots in both the analog and digital artistic world. Due to my passion for IT, I'm able to create a bridge between the graphical and logical aspect of an application. The idea of mixing problem solving with design has always been my wet dream. In my spare time I'm deeply intertwined in the gaming community as a designer, programmer and moderator.

Education

2013-2014 **New Media and Communication Technology, Howest**

Developing smart apps and responsive websites.

- Photoshop and Illustrator as media for web-design
- HTML5, CSS3 and javascript
- Databases and how to use SQL and PHP to access them
- Maths behind encryptions and how to decrypt
- Hardware and server maintenance

2010-2013 **Digital Arts and Entertainment, Howest**

Game production and vfx.

- Realistic rendering and modeling with 3Ds Max and ZBrush
- Creation of production ready modelsheets in an analog or digital manner
- Enjoying the power of C++ and C# in game development
- Trigonometry, translating matrices and physics in games
- Philosophy and working in a team

2008-2010 **Technical Sciences, VTI**

Preliminary program in biotechnology, chemistry and engineering.

1998-2008 **Visual Arts, KASK**

Observational drawing and storytelling in cartoons.

Work Experience

2014-... **Multifunctional Filling Operator, Alpro Soya**

Operating and maintaining a computer driven machine to form and fill cups with fermented soy.

- Working under time pressure
- Shiftwork and how to change biorythm
- Initiation in maintaining mechanical hardware
- Practical use of SAP
- Driving with a forklift

Current Projects

Mullepatte

Helping start-ups with a low budget to present themselves with acceptable cooperate branding. With roots in the gaming community, twitch streamers and youtubers are common clients.

Design CSS HTML

Virtualisation of a renovated home

Modeled my own house and experimented with virtual and augmented reality to help with the visualisation of my renovations.

3D Unreal C++

Hoedgemutst

Maintaining the social media and website for milliner Hoedgemutst. Translating the website's design to a pixel perfect code.

CSS HTML UX Social Media

Belgian Union Stream

Volunteer inhouse designer and moderator for a community based around Twitch streamers and Youtube content creators.
